§ 1485.14 Application approval and formation of agreements.

(a) *General.* CCC will, consistent with available resources, approve those applications which it considers to present the best opportunity for developing, maintaining or expanding export markets for U.S. agricultural commodities. The selection process, by its nature, involves the exercise of judgment. CCC's choice of participants and proposed promotion projects requires that it consider and weigh a number of factors that cannot be mathematically measured—i.e., market opportunity, market strategy and management capability.

(b) *Approval criteria.* In assessing the applications it receives and determining which it will approve, CCC considers the following criteria:

(1) The effectiveness of program management;

(2) Soundness of accounting procedures;

(3) The nature of the applicant organization, with greater weight given to those organizations with the broadest base of producer representation;

(4) Prior export promotion or direct export experience;

(5) Previous MAP funding;

(6) Adequacy of the applicant's strategic plan in the following categories:

(i) Description of market conditions;

(ii) Description of, and plan for addressing, market constraints;

(iii) Reasonable likelihood of plan success;

(iv) Export volume and value and market share goals in each country;

(v) Description of evaluation plan and suitability of the plan for performance measurement; and

(vi) Past program results and evaluations, if applicable.

(c) *Allocation factors.* After determining which applications to approve, CCC determines how it will allocate resources among participants based on the following factors, in addition to those in paragraph (b) of this section:

(1) Size of the budget request in relation to projected value of exports;
